**Date: April 10, 2015** 

## **SAFETY DATA SHEET**

**Section 1. Identification** 

Product name: Hype-Wipe® Disinfecting Towelette with Bleach

**Product Numbers:** 9103, D9103, 9803

**EPA Registration #:** 70590-1

**Product description /** 

**recommended use:** Individually packaged bleach towelettes for cleaning / disinfection.

**Manufacturer:** Current Technologies, Inc.

P.O. Box 21 439 N 525 E

Crawfordsville, IN 47933

**Phone:** 765-364-0490

**Emergency Phone:** Contact your Regional Poison Control Center or doctor

Section 2. Hazard Identification

Classification: This product is not considered hazardous by the 2012 OSHA Hazard

Communication Standard (29 CFR 1910.1200).

**Signal Word / Precautions:** Caution; Keep out of reach of children.

**Precautionary Statement:** Physical and Chemical Hazards: Do not use this product with ammonia, acids

(such as vinegar), rust removers, toilet bowl cleaners, or heavy metals such as copper or iron. Will corrode aluminum. For stainless steel, follow equipment manufacturers' directions; those may direct surface to be rinsed after disinfection.

**Section 3. Composition / Information on ingredients** 

Chemical Name: Sodium hypochlorite

Common Name/ Synonym: Bleach wipe, 1:10 dilution of bleach

CAS#: 7681-52-9

% (by weight): < .94% (.0094 sodium hypochlorite by weight)

**Note:** All ingredients in this product, at their stated concentrations, are non-hazardous as

defined in the OSHA hazard communication standard 29 CFR 1910.1200.

## Hype-Wipe® Disinfecting Towelette with Bleach

Section 4. First-Aid Measures

**Eyes:** If in eyes, hold eye open and rinse slowly and gently with water for 15-20 minutes. Call a

poison control center or doctor for treatment advice.

**Skin:** Promptly rinse skin with water. If irritated, call a poison control center or doctor for treatment

advice.

**Ingestion:** If swallowed, immediately call a poison control center or doctor for treatment advice. Have

person drink a glass of water if able to swallow. Do not induce vomiting unless told to do so by

poison control center or doctor. Do not give anything by mouth to an unconscious person.

**Inhalation:** If inhaled, move person to fresh air. If person is not breathing call 911. Call a poison control

center or doctor for further treatment advice.

**Section 5. Fire-Fighting Measures** 

Suitable Extinguishing Media: Use extinguishing measures appropriate for the situation and

environment.

**Unsuitable Extinguishing Media:** Water spray may not be sufficient when fighting fire.

Specific Hazards arising

from the Chemical: Hazardous Combustion Products: Oxides of carbon.

**Specific Protective Equipment** Wear self-contained breathing apparatus that is MSHA/NIOSH approved

& Precautions for Fire-Fighters: or equivalent, and full protective gear.

Section 6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures:

**Personal precautions:** Avoid contact with eyes. If using towelette to clean / disinfect a potential

bio-contaminated surface, use Universal Precautions and gloves.

Other information: Product may cause damage to fabric/clothing (bleaching), open pouch

carefully. Refer to protective measures in Sections 7 and 8.

Methods and material for containment and cleaning up:

**Methods for Containment:** If pouch is leaking, place in a bag or container that is impermeable to

liquids (e.g., plastic bag or garbage bag).

**Methods for Cleaning Up:** If surface is bio-contaminated, use Universal Precautions for handling

(e.g., use gloves). Wipe up the spilled liquid with a paper towel or wiper;

place pouch, towelette and paper towel / wiper in container for

contaminated waste. Rinse surface with water.

## Hype-Wipe® Disinfecting Towelette with Bleach

### Section 7. Handling and Storage

**Precautions for safe handling:** Use good industrial hygiene / safety practices when handling; if using this

product to clean / disinfect a bio-contaminated surface, then follow Universal Precautions. Avoid contact with eyes, skin and clothing. Do not eat, drink or smoke when using this product. Expiration Date is embossed in seal on side of each pouch and on outside of each case; do

not use this product beyond the expiration date.

**Conditions for safe storage:** Store in a well-ventilated place at room temperature (68-77°F); do not

expose to excessive heat, direct sunlight, or UV light or else sodium

hypochlorite (bleach) efficacy may deteriorate.

**Incompatible Products:** Do not mix with ammonia, acids (such as vinegar), rust removers, toilet

bowl cleaners. Do not use on heavy metals such as copper and iron; will corrode aluminum. For stainless steel, follow equipment manufacturers'

directions; those may direct surface to be rinsed after disinfection.

## **Section 8. Exposure Controls / Personal Protection**

#### **Control Parameters:**

**Exposure Guidelines:** Ingredients in this product with occupational exposure limits are not at

concentrations in excess of permissible exposure limits.

#### **Appropriate engineering controls:**

**Engineering Measures:** Showers, eyewash stations, ventilation systems should be at usage site.

#### Individual protection measures, such as personal protective equipment:

**Eye / Face Protection:** No special protective equipment required.

**Skin and Body Protection:** Gloves are recommended, particularly when using this product repeatedly or

when product is used for cleaning / disinfection of potentially bio-contaminated

surfaces.

**Respiratory Protection:** No protective equipment is needed under normal use conditions. If irritation is

experienced, ventilation and leaving the area may be required.

**Hygiene Measures:** Use good industrial hygiene and safety practices; if using to clean / disinfect a

bio-contaminated surface, then follow Universal Precautions.

## Hype-Wipe® Disinfecting Towelette with Bleach

## Section 9. Physical and Chemical Properties

**Appearance:** White non-woven folded towelette saturated with clear, colorless

liquid.

pH: 12 – 12.5 (liquid)
 Odor: Mild bleach odor
 Odor Threshold: No Data Available

**Specific gravity:**  $\sim 1.0$  **Evaporation Rate:** N/A

Solubility in Water:Completely miscibleFlammability (solid, gas):No Data AvailableFlammable Limits:LFL: N/A; UFL: N/ADecomposition Temperature:Decomposes as heated

Fire & Explosion Hazard: Not flammable

Flash Point: N/A

**Physical State:** Foil pouch containing non-woven towelette saturated in liquid.

Vapor Pressure: No Data Available Vapor Density: No Data Available **Melting / Freezing Point:** No Data Available **Boiling Point / Boiling Range:** No Data Available **Relative Density:** No Data Available **Auto-Ignition Temperature:** No Data Available Viscosity: No Data Available Partition Coefficeient: n-octanol/water: No Data Available

# Hype-Wipe® Disinfecting Towelette with Bleach

# Section 10. Stability and Reactivity

**Reactivity:** Sodium hypochlorite reacts with ammonia, acids (such as vinegar),

rust removers, toilet bowl cleaners to produce hazardous gases such as chlorine and other chlorinated components. Do not use with heavy metals such as copper or iron as sodium hypochlorite may degrade / lose efficacy. Will corrode aluminum. For stainless steel, follow equipment manufacturers' directions; those may direct

surface to be rinsed after disinfection.

Chemical Stability: Stable when handling and storage recommendations followed;

efficacious through expiration date. (See Section 7).

**Possibility of Hazardous Reactions:** None if directions for use, storage and handling are followed

(see Section 7).

Conditions to Avoid (e.g., static Avoid exposure to sunlight, UV light, heat. Do not mix with

**discharge, shock, or vibration):** products listed below as incompatible, or use on incompatible

surfaces listed below.

**Incompatible Materials:** Acids, ammonium compounds, organics, other oxidizers are

incompatible; if product mixed with these incompatible materials, chlorine gas and other chlorinated components may be produced; will corrode aluminum. Do not use product on heavy metals such

as iron or copper. For stainless steel, follow equipment

manufacturers' directions; those may direct surface to be rinsed

after disinfection.

**Hazardous Decomposition Products:** None known.

# Hype-Wipe® Disinfecting Towelette with Bleach

### **Section 11. Toxicological Information**

### **Information on the likely route of exposure:**

**Inhalation:** Adverse effects unlikely; some individuals may have slight irritation to mild bleach

odor.

**Ingestion (oral):** Ingestion of liquid in a single pouch (12 ml) may cause slight gastrointestinal irritation.

**Skin:** Very slight irritant; assigned to U.S. EPA Toxicity Category IV (lowest level).

**Eye Contact:** Slight irritation (redness); resolved within 24 hours in test animals.

### **Symptoms related to the physical and chemical characteristics:**

**Symptoms:** - If ingested orally, slight gastrointestinal irritation.

- If in eyes, slight redness.

### Delayed, immediate and chronic effects from short- and long-term exposure:

**Sensitization:** No data available.

**Carcinogenicity:** Sodium hypochlorite (CAS# 7681-52-9) categorized by the following organizations:

ACGIH – not classified as a carcinogen.

IARC – Group 3; not classified as a carcinogen in humans.

NTP – not classified as a carcinogen. OSHA – not classified as a carcinogen.

### **Numerical measures of toxicity:**

Inhalation: Acute inhalation:  $LC_{50} > 2.23 \text{ mg/L (rat)}$ Ingestion (oral): Acute Oral:  $LD_{50} > 5050 \text{ mg/kg (rat)}$ 

**Skin:** Acute Dermal:  $LD_{50} > 5050 \text{ mg/kg (rabbit)}$ 

**Reproductive:** No data available.

#### **STOT (Specific Target Organ Systemic Toxicity):**

Single exposure: No data available. Chronic exposure: No data available. Repeated exposure: No data available.

### **Section 12. Ecological Information**

**Ecotoxicity:** Does not contain mercury; (below detectable limits).

Persistence and degradability: No data available.

Bioaccumulative potential: No data available.

Mobility in soil: No data available.

Other adverse effects: No data available.

## Hype-Wipe® Disinfecting Towelette with Bleach

### **Section 13. Disposal Considerations**

**Safe handling / methods of disposal:** If the towelette is used for cleaning / disinfecting, it may contain

blood, tissue, feces, bio-waste and should be discarded

immediately in accordance with federal / state / local regulations for infectious materials disposal. If the pouch comes in contact with a bio-contaminated surface, it should also be disposed of

according to regulations.

**Disposal of contaminated packaging:** Do not reuse soiled towelettes. Dispose of in accordance with

federal / state / local regulations.

### **Section 14. Transport Information**

U.S. DOT (Department of Transportation):

IATA (International Air Transport Association):

Not regulated

## Hype-Wipe® Disinfecting Towelette with Bleach

## **Section 15. Regulatory Information**

### **U.S. Federal Regulations:**

**TSCA (U.S. Toxic Substances Control Act):** Ingredients of this product are on the TCSA 8(b) Inventory or otherwise exempt.

#### SARA TITLE III, Section 311/312/313 Superfund Amendments and Reauthorization Act of 1986:

This product does not contain any chemicals which are subject to SARA Title 40 of the Code of Federal Regulations, Part 372.

Acute Health Hazard:

Chronic Health Hazard:

No
Fire Hazard:

No
Sudden Release of Pressure Hazard:

No
Reactive Hazard:

No

#### **CWA (Clean Water Act):**

This product contains the following substances which are regulated pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42)

Chemical name: sodium hypochlorite (CAS# 7681-52-9)

CWA – Reportable Quantities: 100 lb
CWA – Toxic Pollutants: N/A
CWA – Priority Pollutants: N/A
CWA – Hazardous Substances: X

#### **CERCLA (USA – Comprehensive Response Compensation and Liability Act):**

This material, as supplied, contains one or more substances regulated as a hazardous substance under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302).

Chemical name: sodium hypochlorite (CAS# 7681-52-9)

Hazardous Substances RQs: 100 lb Extremely Hazardous Substances RQs: N/A

RQ (Reportable Quantity): 100 lb final RQ; 45.4 kg final RQ

#### EPA:

This product is regulated as a pesticide by the U.S. EPA Antimicrobials Division. In accordance with EPA directives, the product label states: 'Caution: Keep out of reach of children. Read and follow directions and precautions on back panel.'

#### **U.S. State Regulations:**

**California Propostion 65:** Product does not contain any Proposition 65 chemicals.

**Massachusetts:** Product does not contain mercury; (below detectable limits).
